OHIO PEN WAR AT END WITH MEN DIVIDED

Backbone of Mutiny Broken
—Rebellious Men Placed
In Stockade Jail.

BY JAMES L. KILGALLEN
COLUMBUS, O., May 1.—Rigid military discipline prevailed within the walls of the Ohio State Penitentiary today.

The backbone of the mutiny that has raged since a week ago Monday night seemed to be broken.

Rebellious convicts who have been defying prison authority for days had been routed from their "hang outs" in various cell blocks, segregated, placed in a hastily erected stockade or in other buildings within the enclosure and forced to "toe the mark" under the noses of machine guns and rifles.

FORCE ON HAND
The largest military force assembled in Ohio, under arms and for purposes of combat, since the world war was in absolute control of the situation and there was no disputing their authority.

"The war is over," was the succinct comment of Colonel Robert Haubrich, the hard-bitten world war veteran who is commanding the more than 1,000 National Guard Troops and Naval Militia men on duty.

Sullen convicts did exactly what they were told today. The game was up.

Machine guns looked down upon them from the prison walls and the roofs of neighboring buildings. Soldiers in tin hats, armed with pistols and rifles and with hand grenades within easy reach, moved them around at will and with out ceremony.

None of the convicts were too "hard boiled" for the military to handle. They all looked alike to the top sergeants. Every order from Colonel Haubrich was executed to the letter, and with dispatch.

PLACED IN WAREHOUSE
Ring leaders of the insurrectionist movement were weeded out from their fellow-convicts and confined in the old automobile tag warehouse in the northeast corner of the prison yard. It is a barred building.

The "better element" among the prisoners were put in the stockade. This consisted of a barbed wire enclosure, erected by the military on the baseball diamond in the prison yard. Inside the stockade 88 army tents have been pitched. The men were sheltered last night eight to a tent, and in some instances, ten to a tent.

All were searched carefully. Some of the convicts did not relish being frisked but it was all in a day's work to the doughboys.

The soldiers will remain on guard indefinitely, Colonel Haubrich announced. There is a lot of work yet to be accomplished.

All talk of "passive resistance" and any other kind of resistance for that matter—disappeared when the mailed fist of the military was suddenly brought down last evening as the shades of darkness fell over the antiquated and overcrowded bastle. The 3,900 convicts, aroused over the death of 323 fellow prisoners in the Easter Monday night fire disaster, had been insisting they would NOT conform to prison policy while Preston Thomas remained as warden.

HALT MEETING
But Colonel Haubrich decided the time had come when the meetings of the convicts in the Cell Blocks was to be broken up. So he sent his troops in to bring them out and put them in their new quarters where he could keep a vigilant eye on their every move. First of all the Guardsmen went to the "White City" cell block where the "tough babies" hung out, so to speak. And they came out, pronto—the entire 1,300 in that section.

About 660 of this group were placed in the stockade. The agitators and trouble makers—the so-called "bad boys"—were marched to the tag warehouse. The "coal gang," comprised of Negro prisoners, were moved into the idle house.

Other cell blocks, too, were cleaned out. Forty-five tubercular prisoners were given preferred quarters in the chapel.

Armed guardsmen were massed for action while this procedure was carried out. Some of them had tear gas bombs and hand grenades. There was no demonstration, however.

COMMON PLEAS CASE CONTINUES

Hearing in the case of Weidner against Valentine in common pleas court continued Thursday with witnesses for the defendant on the stand. It is expected the case will not be given to the jury until Friday.

1930 FIGURES DISCLOSE 117 WARD 1 GAIN

Total Now 2,302, In 1920 Was 2,185—Jackson-Twp Loses 50 Persons.

Ward 1, that territory all north of Main-st., shows an increase in population of 117 persons since 1920 according to figures disclosed by Gaylor C. Peters, supervisor of the census. This ward's total in 1920 was 2,185, according to T. D. Krinn, deputy county auditor, and at the present time there are 2,302 residents in this district.

This report, as sent to The Herald by Mr. Peters, completes returns from three of the city's four wards.

Ward-2 shows a gain of 77 residents making its 1930 total, 1,513, where 10 years ago it was 1,513.

A decrease is reported in Ward 3 where the population was 1,296 and is now 1,244.

The two wards, taken as a whole, shows an increase of 25 residents.

The percentage of increase in Ward one is 5.07 per cent.

Jackson-twp's population shows a decrease since 1920.

In that year there were 1,059 residents in that township and, at the present time there are 1,009. A decrease of 50 residents is shown here, a percentage of 4.06. One hundred twenty-five farms were enumerated in Jackson-twp.

COOPER GIVEN RELIEF PLANS

Griswold, Advises Improvements Be Made With Contract Not Pen Labor.

COLUMBUS, O., May 1.—Plans for materially improving the conditions at the Ohio penitentiary were in the hands of Governor Myers X. Cooper today. These plans are embodied in a communication which was sent to the governor by Hal H. Griswold, state welfare director.

In addition to the fireproof roofing over all the cellblocks as well as the administrative building, Griswold recommends the construction of a cellblock in the building now housing the E and F dormitory, just west of the warden's residence, and that the prison labor force devote all its energies in completing the construction of the three units of the industrial building.

Griswold advised that the proposed cellblock be built by contract instead of by prison labor.

The state welfare director pointed out that the penitentiary population could be lowered at least 1,360 prisoners when facilities at other state prisons, including the London prison farm, the Mansfield reformatory and the Grafton prison farm are available.

Griswold told Governor Cooper that, after the new E and F cellblock is built, the total capacity of the penitentiary in modern, fireproof cells would be 3,872. In addition, he said, 256 prisoners could be placed in the honor dormitory and about 180 in the hospital, making a grand total of 4,302 prisoners.

EAGLE SHOE FUND CLOSED

The Eagle shoe fund was closed May 1, 1930, after a duration of six months. It is the plan of the F. O. E. to carry on this work during the winter months and this season 435 pairs of shoes were given away at an approximate cost of \$1,400.

Without doubt this is the most charitable work done by any organization this year and the Aerie should be liberally supported by the public in anything that they may enter into to wipe out this debt.

CROWDED OHIO ASYLUM GIVEN DEATH BLAME

Insane Negro Kills Two Patients, Then Himself In School For Insane.

COLUMBUS, O., May 1.—Deaths of two patients at the Columbus State Hospital for the Insane where a crazed negro beat them to death and then afterwards paid for the killings with his own life, today were laid directly to the over-crowded conditions at the institutions.

As they lay sleeping in their cots last night, Sylvester Shanhan, aged 27, of Belmont County, and Frank T. Wilson, aged 52, of Guernsey County, were beaten to death by the negro, who used a wash-stand as the death instrument.

BROKEN NECK
The negro, Ambrose Moss, 31, of Columbus, who had been confined in the institution twice before, suffered a broken neck when he was overpowered by attendants at the hospital. He died within a few minutes.

The first intimation which hospital attaches had of the tragedy was the dull thud of the small wash stand against the bodies of Shanhan and Wilson. They rushed into the ward where the three were confined and, after a brief struggle, placed the negro in a straight-jacket. They then placed him in another room and turned their victims to the victims.

Both were dead.

Coroner J. A. Murphy said that death in both cases was due to a fractured skull.

Hospital attendants then turned their attention to the negro.

Dr. William H. Pritchard, superintendent of the hospital, declared that he had been forced to place the negro with the two other men because of overcrowded conditions at the institution.

The negro had been in the hospital less than six hours when he wantonly slew his ward-mates Shanhan, who was suffering from the effects of a strange sleeping sickness, had been in the state hospital only six days when his life was cut short by the violent death.

The Belmont co. mat. is survived by a mother, Mrs. Elizabeth Shanhan, of Flushing, Ohio, in that county.

Wilson, the second victim, was a victim of paralysis and he was powerless to resist the negro's attack. He had been admitted only 12 days ago. A daughter, Mrs. Freda Artist, and a wife, Mrs. Anna Wilson, survive him.

Authorities will make a further investigation into the tragedy today.

AKERS GIVEN DEATH STAY

Cleveland Negro's Death Put Off Until June 13 By Gov. Cooper.

COLUMBUS, O., May 1.—Governor Myers X. Cooper today granted a stay of execution, until June 13, to Lee Akers, colored, Cleveland, who was condemned to die in the electric chair at Ohio penitentiary for killing a Cleveland filling station attendant during a holdup in December, 1928.

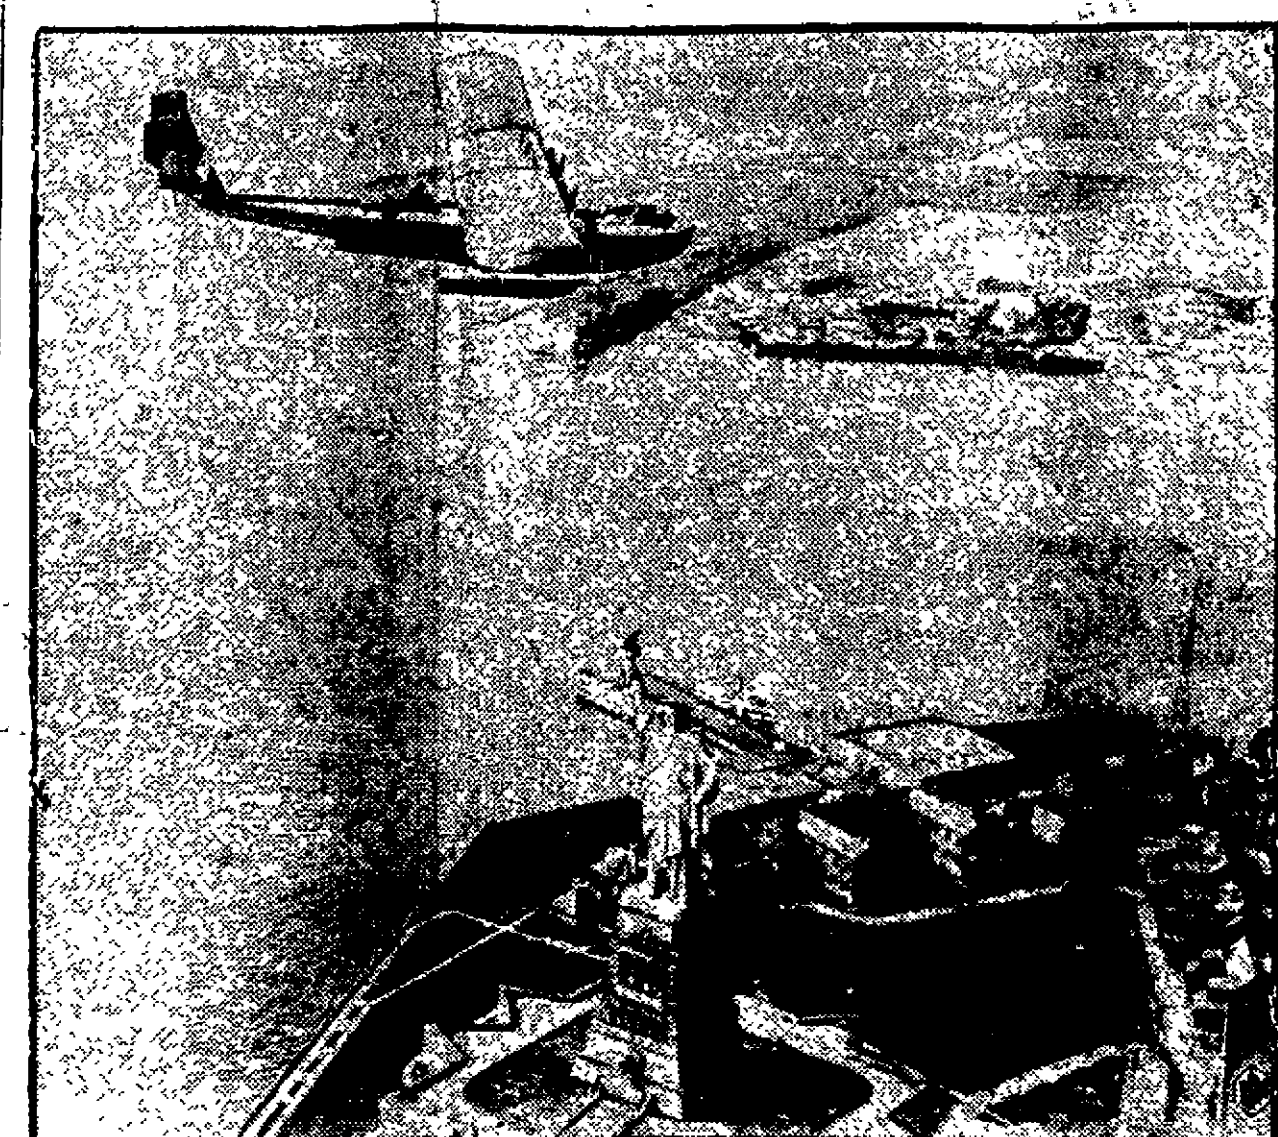

The governor's action was in compliance with a recommendation by the state clemency board. The stay postpones the electrocution that had been fixed for Friday.

Following the holocaust at the state prison on the night of April 21, Governor Cooper granted a 30-day reprieve to John Richardson, Akron, who was to have been electrocuted last Friday for murdering Steve Pearson during an attempted robbery at a road house between Akron and Cuyahoga Falls.

M'CLARREN GIVEN CIRCUS CONTRACT

Lewis McClarren has been granted the contract for the erecting and advertising in Circleville and in neighboring towns by the Robbins Bros. circus which will show in Circleville May 15. McClarren will have two trucks in the city and five machines to visit 50 towns in this vicinity.

JACKSON-TWP WOMAN DIES

Mrs. William Rader, Aged 52, Victim of Cancer After Six Months' Illness.

Cancer and complications after an illness of six months proved fatal to Mrs. Jesse T. Rader, aged 52, wife of William Rader of Jackson-twp at 10-30 a. m. Wednesday.

Mrs. Rader was one of Pickaway-co's best known and highest respected residents and had been a lifelong resident of Jackson-twp with the exception of a short time when she lived in the Philippine Islands.

She was the daughter of Mr. and Mrs. Jeff Shook, both of whom are deceased.

Surviving are her husband, William Rader, five children, Martha and William, Jr., at home, and Mary, Earl of Zanesville and Clifford Weaver of Santa Rosa, Cal., children by a former marriage; three sisters, Mrs. George Radcliff, Jackson-twp, Mrs. Rose Wilkins, McGuffey, O., and Mrs. Oliver Lamm, Wayne-twp, two half-sisters, Mrs. William Hurley, Columbus, and Mrs. Adolphus Pierce, this city, and by five brothers, George Shook, Jackson-twp, Carl of Powell, O., Henry and Harry of Columbus, and William of Steubenville.

Funeral services will be Friday at 2:30 p. m. at St. Philip's church in this city with Rev. Benjamin C. DeCamp officiating. Burial will be in Forest cemetery.

\$806 COGNOVIT

A cognovit judgment was returned in common pleas court Wednesday in favor of Clarence Baum against J. R. Duvall for the sum of \$806.41.

Lester S. Reid of Duvall represents the plaintiff.

IVEY RELEASED

Dred Ivey, Jr., of Chillicothe was released from the county jail Thursday after serving two months on a federal charge.

RED CROSS REPRESENTATIVE WORKING ON PREPAREDNESS

Miss Helen J. Moses, national representative of the American Red Cross, is in the city organizing a disaster preparedness program for the local chapter.

Miss Moses started the program several months ago and just when things were beginning to take form she was called to the Vincennes, Ind., flood where 300,000 acres of land was inundated, and 1,733 families cared for.

The work took two and one-half months to complete.

Evidence of the thoroughness of the organization of the American Red Cross and its ability to respond quickly in emergency, was seen during the disaster of the Ohio penitentiary fire last week in which 320 prisoners lost their lives.

One of the outstanding features in this connection was the quickness with which a canteen was established at the state fairgrounds, to which place the bodies of the dead were removed following the fire. At 12:30 Monday night Edwin S. Burdell, chairman of Franklin County chapter was advised that a canteen was needed at the morgue at the fairgrounds, and within three quarters of an hour this important necessity was in operation.

50 GALLONS OF COFFEE
Immediately upon receiving this notice, Burdell communicated with Raymond Rhoads, 1161 Lincoln Road, who for 10 years has been lay head of the State Fair hospital. Rhoads soon had 50 gallons of coffee, 500 sandwiches and a large quantity of doughnuts ready to be served to those engaged in the work at the morgue.

The principle source for the personnel at the canteen was furnished by the Junior League of Columbus, which supplied 30 young women who worked 24 hours a day in shifts.

OFFERED TRIP
In recognition of the work of Mr. Rhoads in his organization of the canteen, a wealthy friend of the Red Cross in Columbus, has offered to send him to Washington with all expenses paid to attend the National Conference of the Red Cross to be held in that city, May 5 to 10.

Rhoads in addition to handling this particular phase of the Red Cross work for many years is also a member of the board of directors of Franklin County chapter.

In addition to the canteen work that was conducted, the Red Cross maintained a hospital service for the relatives of the fire victims, which rendered care for a large number of hysterical women, many of whom were in a state of collapse.

SOCIAL WORKERS HELP
A corps of social workers was furnished to aid the relatives through the necessary red tape to a point where they could finally claim the bodies of their dead.

LOCAL WOMAN PRIZE WINNER

Mrs. Ward Robinson Wins \$200 Christian Herald Prize For Original Hymn.

Circleville has again entered into state and national news, this time by virtue of Mrs. Ward Robinson's original hymn commemorating the nineteenth hundredth anniversary of Pentecost and founding of the Christian church.

Mrs. Robinson of 315 S. Pickaway-st. was declared the winner of The Christian Herald's \$200 prize for the best original hymn commemorating the Pentecostal anniversary. Six hundred persons from all over the United States took part in the contest.

Mrs. Robinson's hymn is entitled "Humbly and Reverently" and described as "a prayer for Pentecostal blessings upon the church universal." It is intended to be sung to the tune of "Come Ye Disconsolate."

UNIVERSITY OF PENNSYLVANIA STUDENTS WRECK BUILDINGS

Philadelphia's Police Head Thrown In Jail Under \$1,500 Bond—Australian Reds Capture Government Buildings and Hoist Flag.

BULLETIN
By International News Service
Extraordinary police precautions in the principal cities of the world including round-up of all suspected characters, guarding of public buildings, government officials and prominent men, today greeted the annual May Day demonstrations in every corner of the globe.

A survey of International News Service at 10 a. m. eastern day, light saving time showed that little violence had occurred anywhere in Europe or the United States by that time. The most serious demonstration anywhere was at Darwin, capital of Northern Australia, where communists seized the office of the government administrator and hoisted the red flag in the center of the city.

In New York, an army of 18,000 patrolmen and reserves, stationed at Union Square and other strategic points throughout the city, appeared to furnish a guarantee that any untoward demonstration would be short-lived. Homes of wealthy men such as J. P. Morgan and John D. Rockefeller, Jr., were heavily guarded, while similar precautions were taken in Chicago, Philadelphia and other large cities throughout the country.

The demonstrations radiated from Moscow, where more than 500,000 communists paraded in the Red Square, carrying anti-capitalistic and anti-religious banners. With its police forces augmented by reserves to 40,000, Paris made short shrift of demonstrations before then 190 were arrested, including the entire city council of St. Denis and M. Doriot, member of the Chamber of Deputies, when they tried to stage a red meeting.

Seventeen were arrested in Sydney, Australia, when police broke up a huge communists procession. More or less peaceful demonstrations took place in Berlin, Vienna, Bucharest, Budapest and other cities of central Europe. There was the usual convulsion of haranguing orators in Hyde Park, London, but no serious disturbances.

South America was quiet with police ready to stamp out the slightest sign of violence.

PHILADELPHIA, May 1.—May Day opened with a riot of 2,000 students at the University of Pennsylvania here early today and before the disturbance had been quelled 300 students were in jail, and L. B. Schofield, Philadelphia's Police System Head, had been arrested, ordered held in \$1,500 bail and ordered sent to Moyamensing prison.

The safety director refused to abide by the ruling of Magistrate Tommy O'Malley, however, and his aides threw the magistrate out of the station house at Schofield's direction. Schofield, after a tirade to the students under arrest, permitted them to be released pending a hearing.

Schofield's arrest was authorized on a warrant sworn out by Michael J. Calby, republican legislative candidate, when it was learned he had issued orders forbidding any of the students under arrest from being freed on copies of the charges lodged against them. Calby's staff served the warrant.

After the tumult had subsided and the magistrate had been temporarily ejected from the police station, Schofield declared the entire proceedings had been illegal in regard to his arrest hearing and commitment. He declared that he had not been in the room at the time of the magistrate's brief hearing.

CELEBRATES NIGHT
The safety director's arrest checked a night of tumult that made life unpleasant for the residents surrounding the University of Pennsylvania campus.

The first outbreak started about midnight when some two or three hundred students staged a "topsy bottom" party in the basement of a study hall at the campus.

Stores were looted, windows smashed and furniture broken. Thrown into the street were police attempts to make the scene a disturbance. Many of the students had to be taken to the hospital. Doors and locks were smashed. One case the gunning of the police of with their own clubs, batons and tear gas.

It was 3:15 a. m. before the rioting subsided.

The police invasion of the quiet precincts surrounding the university marked a spectacular and for the second revolution that has thrown terror into the neighborhood within the past three days.

Discrediting their policy of peaceful intervention last night, Schofield's men, several hundred strong, wielded clubs and pistols alike, in better in the dusty doors of the palatial fraternity houses.

RAISE FLAG
LONDON, May 1.—Unemployed communists in Darwin, capital of North Australia, got out of control today and smashed several hours of rioting by hoisting the Red Flag in the center of the city and occupying the house of the government administrator, according to Melbourne dispatches to the Evening News.

All available police reserves were called out to handle the situation. Authorities were hard pressed to keep the demonstration from assuming entire unmanageable proportions.

A heavy guard was thrown around all banks and public buildings. Bodyguards were assigned to important officials.

19-Year-Old Cross Country Airman Lands in Desert To Pass Night.

EL PASO, Tex., May 1.—After spending a night on the desert, 100 miles east of El Paso, Frank Goldsborough, 19 year old Westfield, N. J., flyer attempting to set a new junior trans-continental flight record, arrived here this morning at 7:10 a. m., mountain time.

The youth landed in the desert during the night when he became afraid of losing his way in the darkness.

The air line between Midland and El Paso leads over the Sierra mountains and is considered dangerous to aviators. The line is not marked by beacons.

A wing of Goldsborough's plane was slightly damaged in his forced landing in the sands. Repairs will be made here before he resumes his trip.

RED CROSS REPRESENTATIVE WORKING ON PREPAREDNESS

Miss Helen J. Moses, national representative of the American Red Cross, is in the city organizing a disaster preparedness program for the local chapter.

Miss Moses started the program several months ago and just when things were beginning to take form she was called to the Vincennes, Ind., flood where 300,000 acres of land was inundated, and 1,733 families cared for.

The work took two and one-half months to complete.

Evidence of the thoroughness of the organization of the American Red Cross and its ability to respond quickly in emergency, was seen during the disaster of the Ohio penitentiary fire last week in which 320 prisoners lost their lives.

One of the outstanding features in this connection was the quickness with which a canteen was established at the state fairgrounds, to which place the bodies of the dead were removed following the fire. At 12:30 Monday night Edmond S. Burdell, chairman of Franklin County chapter was advised that a canteen was needed at the morgue at the fairgrounds, and within three quarters of an hour this important necessity was in operation.

50 GALLONS OF COFFEE
Immediately upon receiving this notice, Burdell communicated with Raymond Rhoads, 1161 Lincoln Road, who for 10 years has been lay head of the State Fair hospital. Rhoads soon had 50 gallons of coffee, 500 sandwiches and a large quantity of doughnuts ready to be served to those engaged in the work at the morgue.

The principle source for the personnel at the canteen was furnished by the Junior League of Columbus, which supplied 30 young

women who worked 24 hours a day in shifts.

OFFERED TRIP

In recognition of the work of Mr. Rhoads in his organization of the canteen, a wealthy friend of the Red Cross in Columbus, has offered to send him to Washington with all expenses paid to attend the National Conference of the Red Cross to be held in that city, May 5 to 10. Rhoads in addition to handling this particular phase of the Red Cross work for many years is also a member of the board of directors of Franklin County chapter.

In addition to the canteen work that was conducted, the Red Cross maintained a hospital service for the relatives of the fire victims, which rendered care for a large number of hysterical women, many of whom were in a state of collapse.

SOCIAL WORKERS HELP
A corps of social workers was furnished to aid the relatives through the necessary red tape to a point where they could finally claim the bodies of their dead.

LOCAL WOMAN PRIZE WINNER

Mrs. Ward Robinson Wins \$200 Christian Herald Prize For Original Hymn.

Circleville has again entered into state and national news, this time by virtue of Mrs. Ward Robinson's original hymn commemorating the nineteenth hundredth anniversary of Pentecost and founding of the Christian church.

Mrs. Robinson of 315 S. Pickaway-st, was declared the winner of The Christian Herald's \$200 prize for the best original hymn commemorating the Pentecostal anniversary. Six hundred persons from all over the United States took part in the contest.

Mrs. Robinson's hymn is entitled "Humbly and Reverently" and described as "a prayer for Pentecostal blessings upon the church universal". It is intended to be sung to the tune of "Come Ye Disconsolate".

LOCAL RESIDENT HAS OPERATION

Mrs. Harry Gephart, of Walnut-st, underwent a serious operation at Chillicothe hospital Wednesday and it is reported her condition is as good as could be expected. Mrs. Fred McGath, this city, and Mrs. Ray Brown, of Columbus, were at the hospital when the operation was performed.

Philadelphia's Police Head Thrown In Jail Under \$1,500 Bond
—Australian Reds Capture Government Buildings and Hoist Flag.

BULLETIN
By International News Service
Extraordinary police precautions in the principal cities of the world including round-up of all suspected characters, guarding of public buildings, government officials and prominent men, today greeted the annual May Day demonstrations in every corner of the globe.

A survey of International News Service at 10 a. m. eastern daylight saving time showed that little violence had occurred anywhere in Europe or the United States by that time. The most serious demonstration anywhere was at Darwin, capital of Northern Australia, where communists seized the office of the government administrator and hoisted the red flag in the center of the city.

In New York, an army of 18,000 patrolmen and reserves, stationed at Union Square and other strategic points throughout the city, appeared to furnish a guarantee that any untoward demonstration would be short-lived. Homes of wealthy men such as J. P. Morgan and John D. Rockefeller, Jr., were heavily guarded, while similar precautions were taken in Chicago, Philadelphia and other large cities throughout the country.

The demonstrations radiated from Moscow, where more than 500,000 communists paraded in the Red Square, carrying anti-capitalistic and anti-religious banners.

With its police force augmented by reserves to 40,000, Paris made short shrift of demonstrations. More than 100 were arrested, including the entire city council of St. Denis and M. Doriot, member of the Chamber of Deputies, when they tried to stage a red meeting.

Seventeen were arrested in Sydney, Australia, when police broke up a huge communists procession. More or less peaceful demonstrations took place in Berlin, Vienna, Bucharest, Budapest and other cities of central Europe. There was the usual conclave of haranguing orators in Hyde Park, London, but no serious disturbances.

South America was quiet with police ready to stamp out the slightest sign of violence.

PHILADELPHIA, May 1—May Day opened with a riot of 2,000 students at the University of Pennsylvania here early today and before the disturbance had been quelled 300 students were in jail, and L. B. Schofield, Philadelphia's Police System Head, had been arrested, ordered held in \$1,500 bail and ordered sent to Moyamensing prison.

COLONEL ON RETURN TRIP

Lindbergh Carries 201 Pounds of Mail From Cristobal To New York.

CRISTOBAL, C. Z., May 1—Carrying 201 pounds of air mail, Colonel Charles A. Lindbergh left France Field at 7:58 a. m. today on his return flight to the United States for the Pan-American Airways.

A squadron of United States army aviators took off at the same time as Colonel Lindbergh and acted as escort on the first part of the journey.

The mail carried by Colonel Lindbergh was carried to Cristobal from Montevideo.

FOWLER DENIES DRIVING CHARGE

Pug Pleads Not Guilty Before Judge Brown—Held In Default of Bond.

William "Pug" Fowler, Maplewood-ave, who was arrested following an accident with Harley Bolin at Mill and Western-ave Monday evening pleaded not guilty to the charge of driving while intoxicated when arraigned before Judge E. A. Brown Wednesday. His bond was fixed at \$200, and in default of bond he was committed to the county jail.

Tommy O'Malley, however, and his aides threw the magistrate out of the station house at Schofield's direction. Schofield, after a tirade to the students under arrest, permitted them to be released pending a hearing.

Schofield's arrest was authorized on a warrant sworn out by Michael J. Calby, republican legislative candidate, when it was learned he had issued orders forbidding any of the students under arrest from being freed on copies of the charges lodged against them. Constable Milburn of Magistrate O'Malley's staff served the warrant.

After the tumult had subsided and the magistrate had been forcibly ejected from the police station Schofield declared the entire proceedings had been illegal in regard to his arrest, hearing and commitment. He declared that he had not been in the room at the time of the magistrate's brief hearing.

CLIMAXES NIGHT
The safety director's arrest climaxed a night of turmoil that made life sleepless for the residents surrounding the University of Pennsylvania campus.

The first outbreak started about midnight when some two or three hundred students staged a "row-bottom," the term used at Penn for a noisy rally of the collegians.

Stores were wrecked, windows smashed and innocent bystanders thrown into patrol wagons when police attempted to halt the noisy disturbances. Many of the students fled to their fraternity houses. Doors and locks were smashed. In one case the pursuing officers shot the locks off with their guns to secure entrance and arrest the occupants.

It was 3:15 a. m. before the rioting subsided.

The police invasion of the quiet precincts surrounding the university marked a spectacular end to the second rowbottom that has thrown terror into the neighborhood within the past three days.

Discarding their policy of peaceful intervention last night, Schofield's men, several hundred strong, wielded clubs and pistols alike to batter in the costly doors of the palatial fraternity houses.

RAISE FLAG

LONDON, May 1—Unemployed communists in Darwin, capital of North Australia, got out of control today and climaxed several hours of rioting by hoisting the Red Flag in the center of the city and occupying the house of the government administrator, according to Melbourne dispatches to the Evening newspapers.

All available police reserves were called out to handle the situation. Authorities were hard pressed to keep the demonstration from assuming entire unmanageable proportions.

A heavy guard was thrown around all banks and public buildings. Bodyguards were assigned to important officials.

LOST YOUTH FLYER FOUND

19-Year-Old Cross Country Airman Lands In Desert To Pass Night.

EL PASO, Tex., May 1—After spending a night on the desert, 100 miles east of El Paso, Frank Goldsborough, 19 year old Westfield, N. J., flyer attempting to set a new junior trans-continental flight record, arrived here this morning at 7:10 a. m., mountain time.

The youth landed in the desert during the night when he became afraid of losing his way in the darkness.

The air line between Midland and El Paso leads over the Sierra mountains and is considered dangerous to aviators. The line is not marked by beacons.

A wing of Goldsborough's plane was slightly damaged in his forced landing in the sands. Repairs will be made here before he resumes his trip.

COX, EAGLE LEAD FIGHT FOR HARDING TOMB DEDICATION

COLUMBUS, O., May 1.—The nation and Ohioans in particular, were confronted today with the demands of prominent citizens of the Buckeye state that the Harding memorial at Marion, Ohio, be fittingly dedicated.

Political barriers were disregarded as leading Republicans joined with outstanding Democrats in voicing this demand.

State officials, however, were reticent, making no comment for publication.

James M. Cox, former governor of Ohio and once a candidate for the Democratic nomination for president of the United States and Sherman Eagle, Gallipolis, well-known Southern Ohio Republican leader, number among those urging that the Harding memorial be dedicated.

Cox and Eagle are newspaper publishers. In support of this movement, Cox recently published an editorial in his Dayton, O., News, and Eagle carried a similar editorial in his paper, The Times, at Gallipolis.

Declaring that neglect to dedicate the memorial is a "direct affront to the state of Ohio," Eagle editorially suggested that "a public letter be addressed to President Hoover with a request that he 'honor his dead chief' by dedicating the monument and then 'let him refuse in the open that which he has heretofore covertly evaded.'"

Eagle was of the opinion that "the common people of the United States should know why the memorial has never been dedicated."

That not even Hoover, Hughes

or Mellon have said a word in support of their old chief, is the claim contained in the editorial appearing in the Dayton News. Former U. S. Attorney General Harry M. Daugherty seems to be the only one to defend Harding, according to this editorial.

Other allegations contained in the editorial are that former President Coolidge never made any effort to go to Marion to dedicate the Harding memorial; that the recommendation of a member of the Hoover cabinet that memorial services be conducted annually at the Harding memorial in lieu of a formal dedication is just another form of evading a dedication, and that report has it that in the course of Mr. Hoover's campaign for the presidency, all Republican presidents except Harding were represented with pictures on the wall at Republican campaign headquarters.

Christian Science Sanatorium in California

SAN FRANCISCO: Under articles of incorporation already filed with the Secretary of State of California, permanent trustees took over on March 26 the ownership of the property and buildings which are to accommodate the Christian Science Benevolent Association for Pacific Coast. The Association, which will open its doors to guests about the middle of May, was established in accordance with Section 804 Article 1 of the Manual of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

The Benevolent Association for Pacific Coast is the third large charitable institution established by The Mother Church, totaling an investment of over \$4,000,000. The Christian Science Benevolent Association, located in Chestnut Hill, Mass., was chartered in 1916, and The Christian Science Pleasant View Home, located in Concord, N. H., in 1925.

While all three of these corporations are independent from a legal point of view they are under the control and supervision of The Christian Science Board of Directors.

The California property, known as Arden Wood, is a thickly timbered 16 acre, piece of rolling land situated on the edge of San Francisco, its general location being between Twin Peaks and the Ocean. The Sanatorium is sheltered from the prevailing winds by the hill which forms the principal topographical feature of the property. No public roads or ways cross it, but paths will be arranged extending from the Sanatorium through the woods, making a feature of a small ravine which runs along the east boundary.

The Sanatorium, designed by Henry H. Guttersen, Architect, is of steel and reinforced concrete done in a modernized Georgian style, with high central pavilion, tall

classic French windows and steep sloping, red-tiled roof. It will contain accommodations for 120 guests and associates.

Within the last few weeks a substantial piece of property jutting into the principal tract, formerly held by the City of San Francisco for school purposes, has been purchased to secure additional quiet and freedom from outside disturbances.

The Board of Trustees of the San Francisco institution will be in constant touch with The Christian Science Board of Directors as are the Boards of the two New England institutions.

The three Trustees of the new corporation are Mrs. Gertrude M. Glass, George D. Greenwood, and Marvin R. Higgins. Wilson D. Clark has been appointed Manager-Treasurer. All of these officers have been actively interested in Christian Science work for many years.

LEAGUE LEADERS FALL BEFORE ATTACKS OF THREE UNDERDOGS

NEW YORK, May 1.—This was the morning for lots of sporting folks. Along with Camera and Larry Johnson that sepi taste down the Washington Senators, the burly Pirates and of course the Giants.

Those humpty-dumpty Giants were perhaps the standouts as the mighty fell. Facing glittering Dazzy Vance, the pals of McGraw were founced for the third day in a row by the Brooklyn flock, 9 to 4. The only Giant Vance did not dazzle was Pat Crawford. Pat contributed a single, a double and homer, which was three times or more than any other Giant did, but highly deficient to the Robins 11 bingles-bangles.

But ring out wild New York bells! The Yanks did win, shutting out the top of the column Senators 9 to 0. Some very admirably hurling by Piggas was enough to break the solon's eight game winning spell. Pitchers Brown and Burke were very liberal and the Yanks basked a dozen hits against five off Piggas.

And what Camera got was not any more than a rainy night in Venice compared to the spanking the Cubs presented the league leading Pirates. Percy Lee Jones was good; except when he should have been better and the Cubs won 5 to 2.

Pat Malone pitched nice ball and homers by English and Wilson put the period to the finish of Mr. Jones, the man the Pirates got for Burleigh Grimes.

In the other National league encounters a hot Braves' attack defeated the Phillies 9 to 3 and St. Louis succumbed to Cincinnati 4

to 3. Brandt pitched for Boston and outside of Klein's homer he did not allow a Philadelphia player to reach third until two were out, in the ninth. Joe Stripp, playing his first game of the season, was the main reason for the Red's defeat of the Cardinals. Stripp tripled in the ninth to drive in the winning tally.

A rookie from New Orleans named Clint Brown marked up his third straight win in pitching the Indians to victory over St. Louis, 6 to 3. Joe Sewell, Cleveland third baseman, although ill, tripled in the first inning and then retired, continuing his total of consecutive games.

Bill Cissell got three hits and drove in three runs but even so the White Sox lost to Detroit, 6 to 3. Hogsett went the route for the Tigers.

Relief from Curse of Constipation

A Battle Creek physician says, "Constipation" is responsible for more misery than any other cause.

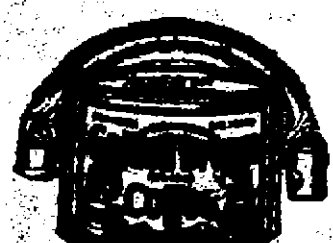

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing a dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 at 25c at the nearest Rexall Store. Hamilton & Ryan.—Advt.

COX, EAGLE LEAD FIGHT FOR HARDING TOMB DEDICATION

COLUMBUS, O., May 1.—The nation and Ohioans in particular, were confronted today with the demands of prominent citizens of the Buckeye state that the Harding memorial at Marion, Ohio, be fittingly dedicated.

Political barriers were disregarded as leading Republicans joined with outstanding Democrats in voicing this demand.

State officials, however, were reticent, making no comment for publication.

James M. Cox, former governor of Ohio and once a candidate for the Democratic nomination for president of the United States and Sherman Eagle, Gallipolis, well-known Southern Ohio Republican leader, number among those urging that the Harding memorial be dedicated.

Cox and Eagle are newspaper publishers. In support of this movement, Cox recently published an editorial in his Dayton, O., News, and Eagle carried a similar editorial in his paper, The Times, at Gallipolis.

Declaring that neglect to dedicate the memorial is a "direct affront to the state of Ohio," Eagle editorially suggested that "a public letter be addressed to President Hoover with a request that he 'honor his dead chief' by dedicating the monument and then 'let him refuse in the open that which he has heretofore covertly evaded.'"

Eagle was of the opinion that "the common people of the United States should know why the memorial has never been dedicated."

That not even Hoover, Hughes or Mellon have said a word in support of their old chief, is the claim contained in the editorial appearing in the Dayton News. Former U. S. Attorney General Harry M. Daugherty seems to be the only one to defend Harding, according to this editorial.

Other allegations contained in the editorial are that former President Coolidge never made any effort to go to Marion to dedicate the Harding memorial; that the recommendation of a member of the Hoover cabinet that memorial services be conducted annually at the Harding memorial in lieu of a formal dedication is just another form of evading a dedication, and that report has it that, in the course of Mr. Hoover's campaign for the presidency, all Republican presidents except Harding were represented with pictures on the wall at Republican campaign headquarters.

Christian Science Sanatorium in California

SAN FRANCISCO: Under articles of incorporation already filed with the Secretary of State of California, permanent trustees took over on March 26 the ownership of the property and buildings which are to accommodate the Christian Science Benevolent Association for Pacific Coast. The Association, which will open its doors to guests about the middle of May, was established in accordance with Section 8 of Article 1 of the Manual of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. The Benevolent Association for Pacific Coast is the third large charitable institution established by The Mother Church, totaling an investment of over \$4,000,000. The Christian Science Benevolent Association, located in Chestnut Hill, Mass., was chartered in 1914, and The Christian Science Pleasant View Home, located in Concord, N. H., in 1925.

While all three of these corporations are independent from a legal point of view they are under the control and supervision of The Christian Science Board of Directors.

The California property, known as Arden Wood, is a thickly timbered 16 acre, piece of rolling land situated on the edge of San Francisco, its general location being between Twin Peaks and the Ocean. The Sanatorium is sheltered from the prevailing winds by the hill which forms the principal topographical feature of the property. No public roads or ways cross it, but paths will be arranged extending from the Sanatorium through the woods, making a feature of a small ravine which runs along the east boundary.

The Sanatorium, designed by Henry H. Guttersen, Architect, is of steel and reinforced concrete done in a modernized Breton style, with high central pavilion, tall classic French windows and steep sloping, red tiled roof. It will contain accommodations for 120 guests and associates.

Within the last few weeks a substantial piece of property jutting into the principal tract, formerly held by the City of San Francisco for school purposes, has been purchased to secure additional quiet and freedom from outside disturbances.

The Board of Trustees of the San Francisco institution will be in constant touch with The Christian Science Board of Directors as are the Boards of the two New England institutions.

The three Trustees of the new corporation are Mrs. Gertrude M. Glase, George D. Greenwood, and Marvin R. Higgins. Wilson D. Clark has been appointed Manager-Treasurer. All of these officers have been actively interested in Christian Science work for many years.

Tells Druggists To Guarantee This Rheumatic Medicine

Searches Out Uric Acid Deposits and Drives Them From the Body.

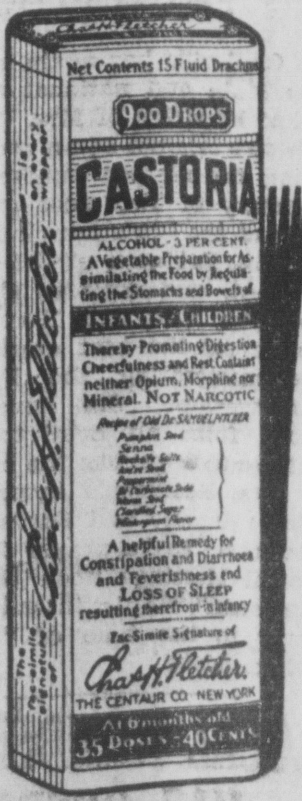

POWERFUL AND SAFE

When you fight inflammatory rheumatic conditions you are fighting an insidious, persistent, well entrenched enemy and you've got to fight with powerful medicine.

That's just what Allenru is—a powerful, safe liquid medicine that goes right to the seat of rheumatic agony, swelling and inflammation, dissolves the uric acid and pushes it right along out of the system through the natural channels.

Then the inflammation subsides—the pain stops—the swelling goes down and soon your old physical fitness returns.

Don't depend on mild medicines to overcome stubborn rheumatic troubles—get a big bottle of Allenru at Hamilton & Ryan's or any modern drug store and if you are not completely satisfied with results—money back—no narcotic in Allenru.—Adv.

LEAGUE LEADERS FALL BEFORE ATTACKS OF THREE UNDERDOGS

NEW YORK, May 1.—This was the morning for lots of sporting folks. Along with Carnera and Larry Johnson that sepi taste down the Washington Senators, the burly Pirates and of course the Giants.

Those humpty-dumpty Giants were perhaps the standouts as the mighty fell. Facing glittering Dazzy Vance, the pals of McGraw were trounced for the third day in a row by the Brooklyn flock, 9 to 4. The only Giant Vance did not dazzle was Pat Crawford. Pat contributed a single, a double and homer, which was three times or more than any other Giant did, but highly deficient to the Robins 11 bingles-bangles.

But ring out wild New York bells! The Yanks did win, shutting out the top of the column Senators 9 to 0. Some very admirable hurling by Pipgras was enough to break the solon's eight game winning spell. Pitchers Brown and Burke were very liberal and the Yanks basked a dozen hits against five off Pipgras.

And what Carnera got was not any more than a rainy night in Venice compared to the spanking the Cubs presented the league leading Pirates. Percy Lee Jones was good except when he should have been better and the Cubs won 5 to 2.

Pat Malone pitched nice ball and homers by English and Wilson put the period to the finish of Mr. Jones, the man the Pirates got for Burleigh Grimes.

In the other National league encounters a hot Braves' attack defeated the Phillies 9 to 3 and St. Louis succumbed to Cincinnati 4 to 3.

Brandt pitched for Boston and outside of Klein's homer he did not allow a Philadelphia player to reach third until two were out in the ninth. Joe Stripp, playing his first game of the season, was the main reason for the Red's defeat of the Cardinals. Stripp tripled in the ninth to drive in the winning tally.

A rookie from New Orleans named Clint Brown marked up his third straight win in pitching the Indians to victory over St. Louis, 6 to 3. Joe Sewell, Cleveland third baseman, although ill, tripled in the first inning and then retired, continuing his total of consecutive games.

Bill Cissell got three hits and drove in three runs but even so the White Sox lost to Detroit, 6 to 3. Hogsett went the route for the Tigers.

There are too many people waiting for business to improve instead of going ahead and improving it.

COPS SECURE BEER SUPPLY

Two Thousand Cases, Valued At \$36,000 Confiscated in Railroad Car.

CLEVELAND, May 1.—Two thousand cases of Canadian beer, valued at \$36,000, were confiscated by special United States customs agents here today.

The beer was consigned to J. C. Attien and was loaded in a slate box car which had started from Maine. The bottles bore labels of Carling's black label Canadian beer.

The camouflaged boxcar was discovered by the agents at a railroad siding in Ashtabula several days ago. They followed the car to Cleveland, where it was found today on a siding at the distribution terminal and cold storage company.

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

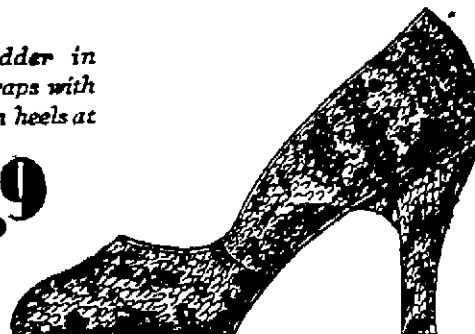

For the protection of your wee one—for your own peace of mind—keep this old, reliable prepara-

tion always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

CITRUS FRUITS SCARCE
The Bureau of Markets of the Ohio Department of Agriculture report a shortage of grapefruit shipped from Florida. A considerable part of the citrus growing sections of Florida have been under federal quarantine for some time because of the Mediterranean fruit fly. Grapefruit is not permitted to be shipped from the state unless the fruit has been sterilized, officials say. Tourists are being refused permission to bring grapefruit out of Florida. Prices are somewhat higher at present because of the situation.

EXTENSION PROJECTS

Augsburg County— HOME CARE OF THE SICK. Show by means of dolls different bandages and process of bandaging—siring of bed rooms, making patient as comfortable as possible, bed making, emergency kit for automobilists.

Darke County— HOUSEHOLD ACCOUNTS. Balance outgo of cash with income—showing things grown on farm that can be used to cut down cash outlay.

Wood County— WELL ARRANGED CLOSET. Good arrangement of closet, rod for clothes, boxes for hats, trees for shoes, etc. How to make dress covers, hat trees, shoe cases, etc.

Lake County— MODISH FINISHES. Booth showing how clothing may be made attractive by finishing touches put on at home.

BATS ARE USEFUL
The human aversion to the bats known to this section is not well founded. Bats are harmless, and their presence in deserted houses and barns should be encouraged because of their destructiveness to insects, says a well informed writer. "Contrary to the common notion, bats will not take refuge in human hair, and their teeth are so small their bite is not much more painful or poisonous than that of a mosquito". Nor, we understand, are bats infested with bed-bugs, as some persons seem to believe.

"KNOW OHIO BETTER" PROGRAMS
The Night School, a 15 minute period over station WLW, from 7:00 to 7:15, Wednesday and Friday evenings broadcast from the Department of Education offices, Columbus, was launched last Friday evening. B. H. Darrow (Uncle Ben of the School of the Air) and Oliver Hartley (The Editor, department publicity man and State Fair advertising manager), have charge of these programs, which are to be educational in character, with a prominent state official as the main attraction at each session, along with brief novelty features and notes on various state departmental activities. One of those features will be to invite editors from the various counties to tell of outstanding facts, beauty spots, resources, etc., of their counties, and eventually to publish these articles in book form. Mr. Hartley declares this will make one of the most readable and valuable publications ever issued on the title. "Know Ohio Better." Mr. Hartley is also conducting a series of similar programs over WAU, as a part of Neighbor Palmer's Farm Hour, on Wednesdays at 12:10 P. M.

NEW MAP ISSUED
State Secretary of State Brown has available to those who ask early, a 271 page book, listing all Federal State and County officials.

The Highway Department on the 1930 road maps, just issued, includes an airport directory, showing each city where ports are located, the name of the field, class, location and the size. The new map also shows the 400 miles of county roads which has recently been made a part of the state system.

COUNTRY SOIL TO HELP ENRICH STATE HOUSE YARD
A cup of soil from each county in Ohio is to be deposited around a tree to be planted in the State House yard at Columbus on Arbor Day afternoon. This program is to be the background for the organization in the state of Nature Guardian Clubs under the auspices of the Conservation Division. Governor Myers Y. Cooper is to be the principal speaker and various organizations will participate, including boy and girl scouts, camp-fire girls and Columbus school children. The tree is to come from the farm near Newark where Governor Cooper spent his boyhood. It has already been selected and is described as a symmetrical, vigorous maple tree about three inches in diameter.

FIRE CAUTION VOICED
Conservation Commissioner J. W. Thompson is asking all sportsmen and fishermen throughout Ohio to be careful with outdoors fires during the dry weather. For a week past fields and woods in Ohio have been unusually dry. More dry weather will come. Do not leave a campfire without putting it out with water. Do not carelessly throw away lighted cigarettes or cigar stumps. Do not empty your pipe in a dry field, where the grass may take fire, or on the dry forest carpet. Empty it against your hand. Then if there are lighted coals or sparks you'll know it. Fire destroys large quantities of game as well as property. A recent hill fire near Newburgh destroyed hundreds of rabbits. Burned them alive.

Reports to the Conservation Division from Buchanan, Va., this week, tell of forest fires destroying thousands of acres of timber, and destroying or driving out game. The town of Buchanan was surrounded by fire with a population of 8,000 in danger. All this might start from one man's cigarette, cigar, pipe or campfire, if extreme care is not used. Every true sportsman, first of all, above everything else, is careful with fire. Commissioner Thompson says.

HERE AND THERE
In the Highway Department they say that one of the most serious problems they face is the destruction of road signs, one-third of the 90,000 signs in the state being damaged annually through vandalism and accidents. The fine for such offense is from \$5 to \$50. Watch your steering wheel.

The Department of Education thinks a new theme song is needed for the play of life in Ohio, and is offering a \$500 prize for the best. Good chance to exchange some music in your soul for some coin of the realm.

Steady improvement is seen in the unemployment situation in Ohio, says George F. Niles, chief of the Division of Labor Statistics.

Clyde Moore the State Journal funny fellow says that possibly those state house squirrels can evade being sent away to the Roosevelt reservation by the claim that they're employed under civil service.

BAKERS OFFEND
Numerous bakers throughout the state have fallen into the practice of omitting from their loaves of bread labels stating the weight thereof and the business name of maker of manufacturer. This is required by law. Offenders are warning their heels in the Food and Daries Division as fast as division inspectors can locate them and cite them in for hearing.

ARBOR DAY
Arbor Day has been fixed by proclamation of Governor Myers Y. Cooper for April 25th. All schools of the state are ordered by law to devote at least two hours in that day to consideration of tree planting, nature study and conservation. Arbor Day programs may be had free from the Conservation Division, Department of Agriculture, Columbus.

Ecculiarities of Echoes
Echo effects are often different when a hall is full. It has been found that an echo which may be there if a hall is filled with women may be entirely absent when the audience is a male one. The silk of women's garments absorbs sound far less than the thicker tweed and woolen clothing of men.

Convicts Under Double Guard

WIN STREAKS ARE BROKEN
Columbus, Louisville and Toledo Suffer Drubbings In Association.
By International News Service
And "the first will be last and the last shall be first!" All of which serves to describe the baseball happenings in the American Association pennant race yesterday, when the under-dogs had their "hay day."

All of the favorites were stopped in their tracks, and the winning streaks of Louisville, Columbus, and Toledo were broken. Though the standings remained unchanged, this may be the turning tide.

Louisville, which still holds a fairly safe grip on the coveted first place, took a ribbing from St. Paul, 2 to 1. The Colonels had won seven straight games, but that's just a part of history now. They will be forced to start all over again. The Apostles are tied in fourth position with Indianapolis.

Toledo, too, saw a bad day. Milwaukee, the seventh berth team, out hit the Mud Hens for an 8 to 6 victory. The sand-lot club of the northern city is still in second place, but like the celebrated "Humpty-Dumpty," they may take a great fall with another loss.

More than 1,800 fans, encouraged by Columbus' winning streak of six straight games, trekked to Neil Park in Columbus yesterday and watched the Senators take a 5 to 1 drubbing from Kansas City Blues. Withall, Columbus holds a safe option on the third berth and it may forge into second with a win today if Toledo loses. The Blues are in sixth place and with such a string of defeats tied to them, that they can't go much higher for at least seven or eight days.

Indianapolis avenged a defeat by taking a 2 to 0 victory from the Minneapolis outfit, which is now keeping the cellar occupied. Tied with St. Paul in fourth position, the Indians have a chance to go places if they hit their best stride.

All camps of the circuit will remain idle today except Columbus, which before embarking upon a long swing about the circuit, will play an exhibition game with the Reserves of the Cincinnati Reds this afternoon.

The Bureau of Markets of the Ohio Department of Agriculture report a shortage of grapefruit shipped from Florida. A considerable part of the citrus growing sections of Florida have been under federal quarantine for some time because of the Mediterranean fruit fly. Grapefruit is not permitted to be shipped from the state unless the fruit has been sterilized, officials say. Tourists are being refused permission to bring grapefruit out of Florida. Prices are somewhat higher at present because of the situation.

EXTENSION PROJECTS

Women in this country who are interested in projects of extension work, as promoted by the Extension Department of Ohio State University, may be interested in the report of a special committee in which the following were chosen for display at the Ohio State Fair.

Miami County— DRESS THAT FITS AND SUITS. Will show possibilities of adapting one pattern to several different modes.

Huron County— HOME FURNISHINGS. Will show finishing of old pieces of discarded furniture—reupholstering of chairs. Show workroom with old pieces, then refinished pieces.

Augulaize County— HOME CARE OF THE SICK. Show by means of dolls different bandages and process of bandaging—airing of bed rooms, making patient as comfortable as possible, bed making, emergency kit for automobiles.

Darke County— HOUSEHOLD ACCOUNTS. Balance outgo of cash with income—showing things grown on farm that can be used to cut down cash outlay.

Wood County— WELL ARRANGED CLOSET. Good arrangement of closet, rod for clothes, boxes for hats, trees for shoes, etc. How to make dress covers, hat trees, shoe cases, etc.

Lake County— MODISH FINISHES. Booth showing how clothing may be made attractive by finishing touches put on at home.

BATS ARE USEFUL

The human aversion to the bats known to this section is not well founded. Bats are harmless, and their presence in deserted houses and barns should be encouraged because of their destructiveness to insects, says a well informed writer. "Contrary to the common notion, bats will not take refuge in human hair, and their teeth are so small their bite is not much more painful or poisonous than that of a mosquito". Nor, we understand, are bats infested with bed-bugs, as some persons seem to believe.

"KNOW OHIO BETTER" PROGRAMS

The Night School, a 15 minute period over station WLW, from 7:00 to 7:15, Wednesday and Friday evenings, broadcast from the Department of Education offices, Columbus, was launched last Friday evening. B. H. Darrow (Uncle Ben of the School of the Air) and Oliver Hartley (The Editor, department publicity man and State Fair advertising manager), have charge of these programs, which are to be educational in character, with a prominent state official as the main attraction at each session, along with brief novelty features and notes on various state departmental activities. One of those features will be to invite editors from the various counties to tell of outstanding facts, beauty spots, resources, etc., of their counties, and eventually to publish these articles in book form. Mr. Hartley declares this will make one of the most readable and valuable publications ever issued on the title, "Know Ohio Better". Mr. Hartley is also conducting a series of similar programs over WLW, as a part of Neighbor Palmer's Farm Hour, on Wednesdays at 12:10 P. M.

NEW MAP ISSUED

State Secretary of State Brown has available to those who ask early, a 271 page book, listing all Federal State and County officials. The Highway Department on the 1930 road maps, just issued, includes an airport directory, showing each city where ports are located, the name of the field, class, location and the size. The new map also shows the 400 miles of county roads which has recently been made a part of the state system.

COUNTRY SOIL TO HELP ENRICH STATE HOUSE YARD

A cup of soil from each county in Ohio is to be deposited around a tree to be planted in the State House yard at Columbus on Arbor Day afternoon. This program is to be the background for the organization in the state of Nature Guardian Clubs, under the auspices of the Conservation Division. Governor Myers Y. Cooper is to be the principal speaker and various organizations will participate, including boy and girl scouts, camp-fire girls and Columbus school children. The tree is to come from the farm near Newark where Governor Cooper spent his boyhood. It has already been selected, and is des-

cribed as a symmetrical, vigorous maple tree about three inches in diameter.

FIRE CAUTION VOICED

Conservation Commissioner J. W. Thompson is asking all sportsmen and fishermen throughout Ohio to be careful with outdoors fires during the dry weather. For a week past fields and woods in Ohio have been unusually dry. More dry weather will come. Do not leave a campfire without putting it out with water. Do not carelessly throw away lighted cigarettes or cigar stumps. Do not empty your pipe in a dry field, where the grass may take fire, or on the dry forest carpet. Empty it against your hand. Then if there are lighted coals or sparks you'll know it. Fire destroys large quantities of game as well as property. A recent hill fire near Newcomers-town destroyed hundreds of rabbits. Burned them alive.

Reports to the Conservation Division from Buchanan, Va., this week, tell of forest fires destroying thousands of acres of timber, and destroying or driving out game. The town of Buchanan was surrounded by fire with a population of 8,000 in danger. All this might start from one match, one cigarette, cigar, pipe or campfire, if extreme care is not used. Every true sportsman, first of all, above everything else, is careful with fire. Commissioner Thompson says.

HERE AND THERE

In the Highway Department they say that one of the most serious problems they face is the destruction of road signs, one-third of the 90,000 signs in the state being damaged annually through vandalism and accidents. The fine for such offense is from \$5 to \$50. Watch your steering wheel. The Department of Education thinks a new theme song is needed

for the play of life in Ohio, and is offering a \$500 prize for the best. Good chance to exchange some music in your soul for some coin of the realm.

Steady improvement is seen in the unemployment situation in Ohio, says George F. Niles, chief of the Division of Labor Statistics.

Clyde Moore the State Journal funny fellow says that possibly those state house squirrels can evade being sent away to the Roosevelt reservation by the claim that they're employed under civil service.

BAKERS OFFEND

Numerous bakers throughout the state have fallen into the practice of omitting from their loaves of bread labels stating the weight thereof and the business name of maker or manufacturer. This is required by law. Offenders are warning their heels in the Food and Daries Division as fast as division inspectors can locate them and cite them in for hearing.

ARBOR DAY

Arbor Day has been fixed by proclamation of Governor Myers Y. Cooper for April 25th. All schools of the state are ordered by law to devote at least two hours in that day to consideration of tree planting, nature study and conservation. Arbor Day programs may be had free from the Conservation Division, Department of Agriculture, Columbus.

Facilities of Echoes

Echo effects are often different when a hall is full. It has been found that an echo which may be there if a hall is filled with women may be entirely absent when the audience is a male one. The silk of women's garments absorbs sound far less than the thicker tweed and woolen clothing of men.

WIN STREAKS ARE BROKEN

Columbus, Louisville and Toledo Suffer Drubbings In Association.

By International News Service
And "the first will be last and the last shall be first!" All of which serves to describe the baseball happenings in the American Association pennant race yesterday, when the under-dogs had their "hay day."

All of the favorites were stopped in their tracks and the winning streaks of Louisville, Columbus, and Toledo were broken. Though the standings remained unchanged, this may be the turning tide. Louisville, which still holds a fairly safe grip on the coveted first place, took a ribbing from St. Paul, 2 to 1. The Colonels had won seven straight games, but that's just a part of history now. They will be forced to start all over again. The Apostles are tied in fourth position with Indianapolis.

Toledo, too, saw a bad day. Milwaukee, the seventh berth team, out hit the Mud Hens for an 8 to 6 victory. The sand-lot club of the northern city is still in second place, but like the celebrated "Humpty-Dumpty," they may take a great fall with another loss.

More than 1,800 fans, encouraged by Columbus' winning streak of six straight games, trekked to Neil Park in Columbus yesterday and watched the Senators take a 5 to 1 drubbing from Kansas City Blues. Withall, Columbus holds a safe option on the third berth and it may forge into second with a win today if Toledo loses. The Blues are in sixth place and with such a string of defeats tied to them, that they can't go much higher for at least seven or eight days.

Indianapolis avenged a defeat by taking a 2 to 0 victory from the Minneapolis outfit, which is now keeping the cellar occupied. Tied with St. Paul in fourth position, the Indians have a chance to go places if they hit their best stride.

All camps of the circuit will remain idle today except Columbus, which before embarking upon a long swing about the circuit, will play an exhibition game with the Reserves of the Cincinnati Reds this afternoon.

FEWER IMMIGRANTS

The United States Senate has voted to reduce immigration from Europe to 1 percent of the representation of the various nationalities in this country in 1890. This will cut the number of immigrants from 150,000 to 80,000 a year.

Before the war, such arrivals often numbered nearly 1,000,000 a year. We are reducing immigration with a vengeance, even when allowance is made for the numbers pouring in from countries of the western hemisphere. These latter, it is expected, will be put on a quota basis too, and better supervision will be exercised, so that there will be fewer of them.

Such a policy is probably best for the country, though it means a shortage of unskilled labor. We shall be forced to rely more on machines and less on men.

There will be a new era in citizenship, dating perhaps from the World War. By the year 1990 it will be hard to find an American who doesn't regard himself as a 100 per center, rooted in the country from antique days.

SUN SPOTS AND RADIO

If human beings don't clutter up the air with too many broadcasting stations, radio fans are in for a pleasant period of good reception. O. H. Caldwell, amateur astronomer and a former radio commissioner, draws this conclusion from the approach of a minimum sun spot cycle.

Every radio fan remembers, he says, the excellent reception in 1922 and 1923, when even small stations could be picked up clearly and distinctly at great distances. Those were years of "minimum" effect of the sun spot cycle which, according to the reckonings, has a period from eight to 13 years. Thus between 1930 and 1933 there should again be wonderful reception from far-away stations.

The big "if", apparently, is the human factor. There was the greedy boy who tried to take so many nuts from the jar at once that his full fist stuck in the jar's small mouth. Too many stations crowding the air, according to the authority, "will likely lead to a chaos of whistles probably worse than anything during the radio law's breakdown in 1926." Better give the sun spot cycle a chance to do us a favor.

CHURCH MEMBERSHIP

The annual census of the Christian Herald shows an increase of only 300,000 in the membership of Christian denominations in the United States last year, compared with an increase of 1,000,000 the year before. Dr. H. K. Carroll, compiler of the census, interprets the figures thus:

"The church is not dying, as some cynics would have us believe. And if it is losing its hold on the people, there is nothing in these statistics to show it. During a year when business receded, when many publications lost circulation, when the membership of hundreds of civil and social organizations dropped notably, it would have been an achievement for the religious bodies merely to hold their own. But they have done better—they have gained, made one of the most remarkable gains, all things considered, since the days before the great war."

He may be right. A layman, however, might have suggested that the churches gained less last year than the year before because the year as a whole was more prosperous. Business grew but only toward the end of the year. It is an old observation that adversity drives people to religion and prosperity lures them away.

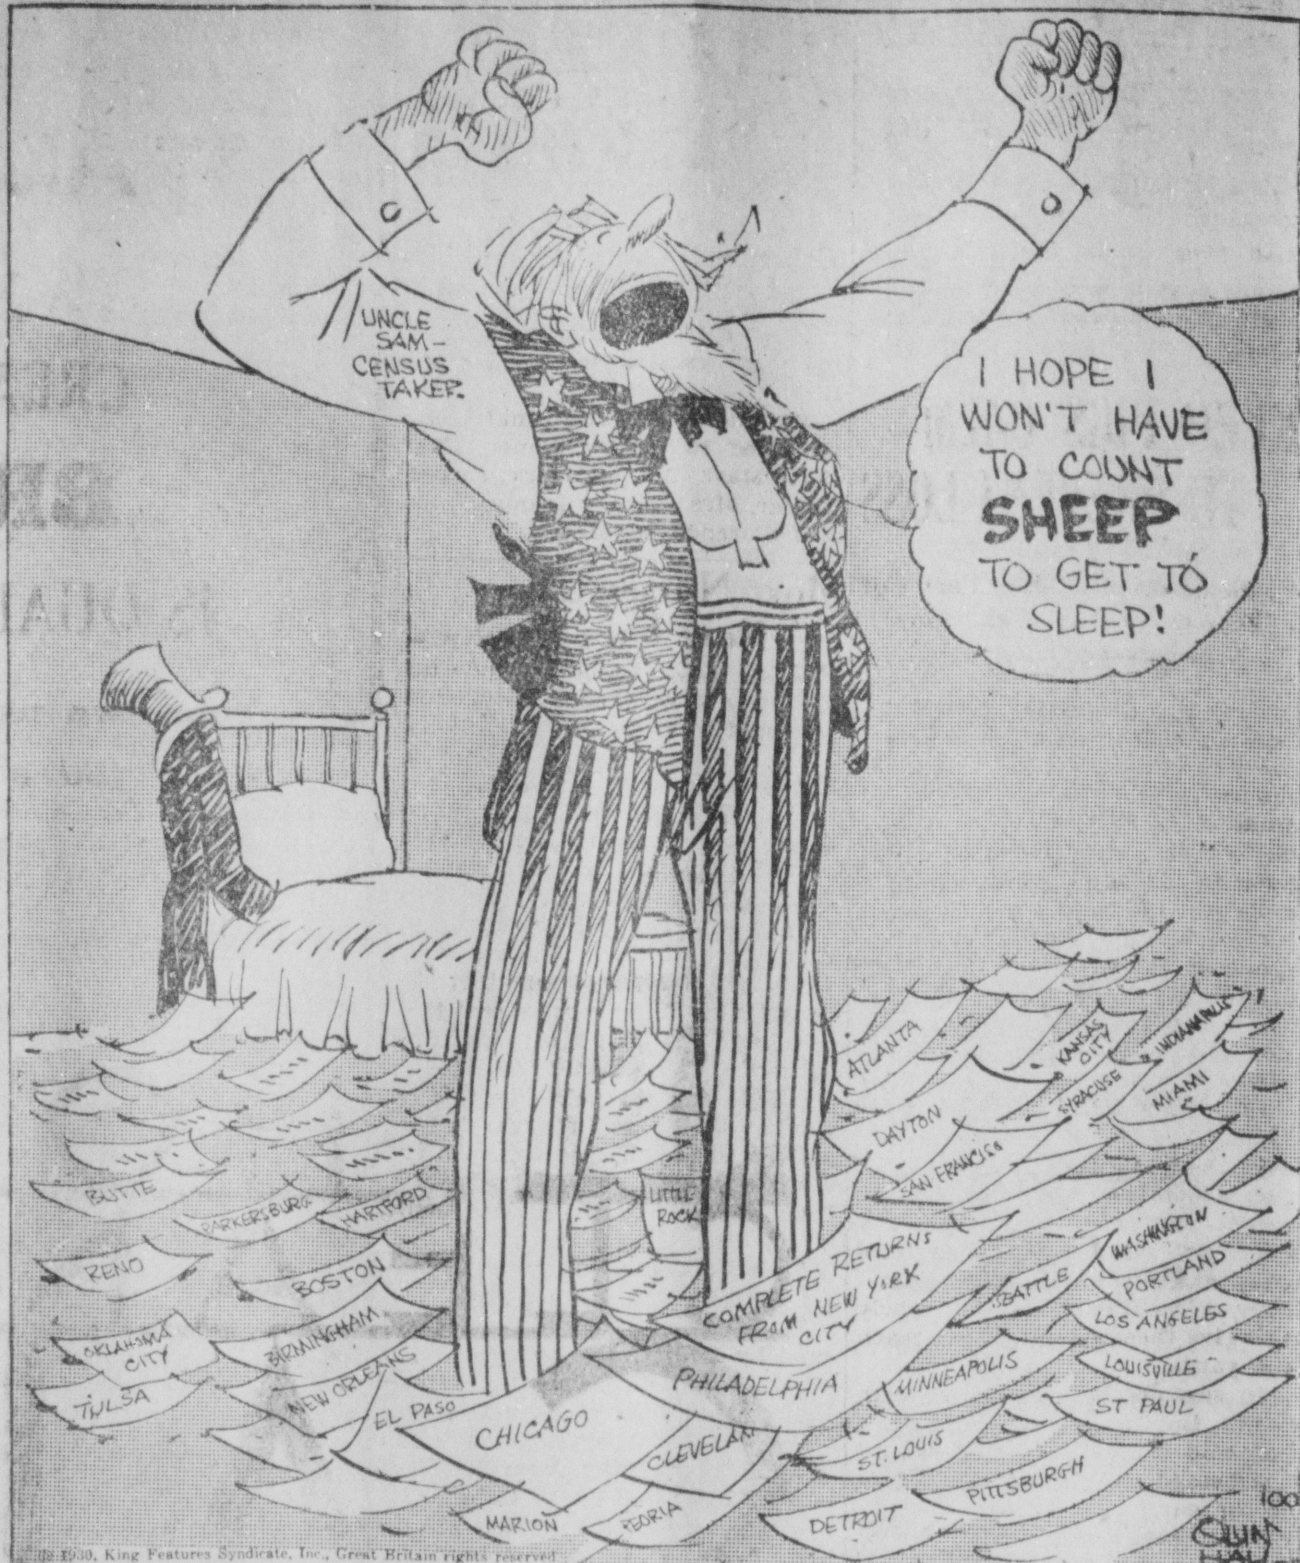

BIGGEST TOURING SEASON

Simple-minded souls playing the auto license game (trying to see and identify license plates from every state) have been impressed with the fact that there are as many different states represented on the highways already as there usually are in mid-summer. In the Middle West there are plenty of cars from New England and the Pacific Coast. While blizzards still were cavoring around in the North, there were cars in northern cities from the Gulf States. Cars from the Middle West, too, are to be seen on the coasts, East, West, and South.

Official confirmation of this amateur observation comes from a large automobile club. Its touring bureau reports that inquiries have already reached mid-summer volume. This bids fair to be the biggest touring year yet, with the "season" starting early and lasting late into the autumn.

A fortune awaits the genius who will develop a breed of cutworms to keep the lawn mowed.

"SHEIK'S WIFE"

BY WINIFRED VAN DUZER

DESPITE the warnings of her friend, Mary, young and unsophisticated Eve Reade marries Ken Wilmer, well known artist. Eve hopes to become accustomed to the unconventional ways of Ken's artist associates in The Lane. She has a staunch friend in Nory O'Rell, the author. Ken and Eve spend their honeymoon at Eve's uncle's home. They meet Puss Southwick, who asks permission to visit Ken's studio some time. Ken becomes restless and they return home. In spite of many happy hours, numerous differences arise which Eve tries to overlook. To please Ken, she suggests a housewarming. He is enthused.

NOW GO ON WITH THE STORY.

CHAPTER XXI.

THE PARTY was as unlike the housewarming Eve had planned as Ken's flamboyant sign on the bulletin board was unlike the discarded engraved invitations. But the sign had been more right than the invitations; she acknowledged this to herself with a rueful bit of a smile, now that the party was all over and Ken a bit tipsily had got himself into bed with a pitcher of ice water near at hand.

"Some party!" he kept mumbling, doing between the words. "Some . . . party. Wasn't it . . . red-head? SOME . . . party . . ."

"Yes, dear," she would answer. And when finally he stopped mumbling she slipped down to the living room and emptied still-smoking ash trays and wiped up a spilled cocktail or two and decided that perhaps the broken back of a rush-bottom chair might be mended and lowered the shades against broad sunlight.

But even after Eve had darkened the bedroom and folded the pillow carefully under her head she could not sleep. The party kept whirling through her thoughts, a wild confusion of noise and color and light with scenes standing out, only to dissolve and form other scenes quite as figures shape themselves in a kaleidoscope.

Ken, tossing the cocktail shaker up and down, his face too red, sleek hair rumpled and falling over his eyes. Ivy Carr's worried, scornful gaze on her husband. Pierre somewhat drunkenly making love to Elma's pretty young sister who did an original and astonishing version of the Charleston on the table after four gin rickys.

Chuck Holly broiling "dachs-hunds" at the kitchen range—Eve had ordered these instead of the dinner in the end.

And Fifi Devoe bursting in when the evening was half over, throwing herself at Ken, kissing him on the mouth. Had he held her a minute longer than was necessary?

Fifi had returned from Hollywood only last night and had traced the sounds of revelry to the bungalow. She ignored the fact that the party was a housewarming and ignored Ken's marriage; she would have ignored her hostess except that Eve still held to the Connecticut whimsey of greeting her guests.

"Love Game An Hour" had made the movies Fifi proclaimed to all who cared to listen. It was bought and paid for, which was a good thing for the movie people, but bad for Fifi since she never—no, not ever!—would have allowed her precious story to be touched by the assassins had she dreamed what atrocities they would commit.

DERBY

Mr. and Mrs. Floyd Mouser have a little baby girl in their home born last Tuesday.

Mr. and Mrs. Rex Hall of Columbus have a little boy born last Thursday. Mr. and Mrs. Hall were raised here. Mrs. Hall was Miss Rosella Graham.

She was picked up and put down upon the one kitchen chair, while a long, thin figure took her place and a pair of hazel eyes twinkled at her.

"Why, it's you, Nory!" She could not feel surprised; it seemed quite natural somehow to see him there.

"Me, myself, in person. And how's the dryad?"

"Not very dryadish tonight, my dear." Her look turned toward the front of the house and the hubbub that was there.

He cut bread, spread slices with butter and minced chicken, slapped the slices together and cut them in neat diamonds and Eve sat watching him.

"I don't think you're such a good friend after all," she remarked at last. "Where were you anyway, Nory? And why didn't you send me the finest happy wish? I expected this from you."

He waited a while and answered finally in a grave tone. "You knew you had all my good wishes, Eve. You and Ken. It's

And Fifi indeed seemed not at

all concerned with misfortune after a few of Ken's cocktails.

She still wore the soiled middie and the torn blue skirt and Eve could not help wondering if they had been changed during her two months' absence, though of course the middie had been clean when Fifi left for Hollywood.

But Eve's attention was not centered on Fifi for another woman's return the night of the party. It was toward morning when the hot dogs had run out, and Eve had gone to the kitchen to make sandwiches of tinned chicken, that there was a rustle at the back door. She was struggling to open a can at the moment and so did not look up until a hand came down over hers, taking both can and opener while a voice said somewhat roughly, "Let me do this."

Things you and the other fellow are not sure of that you put down politely on paper . . . Do you take this grub in there or does the zoo come out?"

As casual as that, Nory was, but comforting to the bride who felt strangely lonely at her housewarming. He said little and laughed not at all, observing the party as if it were interesting, but not quite convincing. He had a way of surveying Eve across the distance of the room, giving her his whimsical smile when she happened to catch his look.

Without Nory, as she told herself now when she was falling asleep at last, it would not have been much of a success—her party . . . Not much of a success without Nory, for her . . .

PRESIDENTIAL POWERS

Section 1 of Article 1 of the Constitution states that "all legislative powers herein granted shall be vested in a congress of the United States, which shall consist of a senate and house of representatives." The President's power over lawmaking is in suggesting laws to congress and in approving or vetoing laws that have passed.

Must Be Personal Touch

Conversation warms the mind, enlivens the imagination and is continually starting fresh game that is immediately pursued and taken and which would never have occurred in the duller intercourse of epistolary correspondence. —Benjamin Franklin.

Corn planting has opened unusually early this year and dozens of farmers in this community have already started planting corn or will at once.

Usually corn planting does not become general until about the second week in May, but many farmers, remembering experiences of the past few years, when rainy weather developed and interfered with planting, apparently wish to get their corn planted before the rainy period begins.

Some of the farmers have driven to points 50 miles distant to obtain suitable seed corn.

Value of a Balanced Diet

In This Age of Great Activity It Is Necessary to Maintain Health with Proper Foods.

By R. S. COPELAND, M. D.
U. S. Senator from New York.
Former Commissioner of Health, New York City.

WE ARE living today in an age of great activity. It is necessary that we have the proper food to keep the body in good condition. We must have it to enable our hearts and muscles to do their work.

One hears much about a balanced diet. How many are there who know what this means? Even if they do realize its importance, there are too many, either deliberately or without intent, who go merrily on their way. They eat wrongly and in consequence suffer the penalties of broken health.

Every housewife must feel the responsibility of choosing the right food to keep her family physically fit. There are certain simple rules to follow. It requires the application of a little intelligence, of course, but it will pay in the long run to put thought and care into the selection of the right things to eat.

The important foods which produce energy and repair body waste are divided into three general classes—proteins, carbohydrates and fats. A balanced diet calls for the food elements in the following proportions:

One part of protein made up of the flesh foods, like meats, eggs and the dairy products. These are for building and repairing the muscles and framework of the body.

Three parts of fats, such as are found in butter, cream, oils and cooking fats, oily nuts and fat meats. These furnish energy and round out the body. They give flexibility to the joints and the muscles.

Six parts of carbohydrates, made up of sugars and starches, such as potatoes, cereals, breads, sugars and other sweets. These furnish heat and energy.

There are other foods, also, that are needed to provide the mineral salts. These elements go to make the teeth, bones and other tissues of the body. The foods must contain roughage and a sufficient vitamin content to protect the body from disease.

Meals are not necessarily well balanced even when they contain one of each class of foods, for much depends upon the proportions used. Do not use too many similar foods; variety should be the rule.

If you have meat for dinner, you should not include a dessert made up of milk and eggs. If you do, you will be supplying more protein than is necessary. If the meal includes no meat, but bread, butter and vegetable, then you will have a balanced meal by including a custard or rice pudding made mostly of milk.

As long as you strike a good weekly average of all classes of foods necessary to maintain health, you will be keeping on the safe side. That is, if you lack at one meal a part of the balanced diet, it can be made up at the next meal.

Section 1 of Article 1 of the Constitution states that "all legislative powers herein granted shall be vested in a congress of the United States, which shall consist of a senate and house of representatives." The President's power over lawmaking is in suggesting laws to congress and in approving or vetoing laws that have passed.

Conversation warms the mind, enlivens the imagination and is continually starting fresh game that is immediately pursued and taken and which would never have occurred in the duller intercourse of epistolary correspondence. —Benjamin Franklin.

Theatres

AT THE METROPOLITAN

Carol Lombard, charming Pathe leading woman, has been cast opposite Robert Armstrong in "The Racketeer," one of the biggest all-dialogue productions on the current Pathe schedule, which is on view at the Metropolitan Theatre. "The Racketeer," an original story by Paul Gangelin, was directed by Howard Higgin and went into production immediately upon completion of "Oh, Yeah!" in which Armstrong is featured and in which James Gleason has one of the leading parts. This is the first time the two have been together since their notable stage triumph in "Is Zat So."

Included in the supporting cast—Roland Drew, Jeanette Loff, John Loder, Paul Hurst, Winter Hall, Winifred Harris, Kit Guard, Al Hill, Hedda Hopper and others.

AT THE CLIFTONA

H. B. Warner and Lois Wilson have formed such a happy combination in First National pictures that they are "teamed" again in "The Furies," a talking film version of Joe Akins' tense stage drama at the Cliftona Theatre.

The teaming in this case isn't romantic, however.

Probably never in the history of drama has such a strange relationship between two leading characters been devised as that which gradually develops during the unfolding of the "Furies" plot, between Warner and Miss Wilson.

A brilliant supporting cast appears, headed by Theodore Von Eltz, Natalie Moorehead, Jane Winton, Tyler Brooke, Alan Birmingham, Purnell Pratt. The famous boy actor of stage and screen, Byron Sage, also has an important part.

GRAY'S COWBOYS

Otto Gray and His Oklahoma Cowboys who have been a daily feature on the air from Station

WLW, Cincinnati, for the last two weeks are real cowboys and every one of these six-foot musicians and singers have known what it means to ride creaking leather on the pitching back of a spirited Broncho. The plaintive song of "The Dying Cowboy" is familiar to countless thousands of radio fans from one end of the country to the other. And forty or fifty characteristic ballads of the western prairie owe much of their popularity to this colorful group. And how these boys can fiddle and sing. Their style of playing is refreshing in these days of jazz.

They are booked to appear at the Cliftona Theatre, next Sunday.

AT THE GRAND.

"Christina," starring Janet Gaynor, Charles Morton and Rudolph Schickelkraut, made a pleasing impression at the Grand Theatre Wednesday evening and is being shown again Thursday. Miss Gaynor, a typical American girl, goes through many personalities in this production and is pleasing throughout the picture.

THREE MEN, WOMAN HELD FOR THEFT

MUNCIE, Ind., April 30—Three men and one woman were under arrest here today in connection with the reported theft yesterday of \$7,000 from Albert Gray, a bank messenger for the W. A. McNaughton department store here.

Gray, who said he was kidnapped by the bandits, was one of those under arrest. The others were Paul Haggard, 30, of Scranton, Pa., Jack Miller, of Dayton, O., and a woman whose identity was not revealed by the authorities.

Gray was found about four miles out of town yesterday with his hands taped behind him and his mouth taped shut. His story led to the other arrests. The investigation was being continued.

For Men Who Dress Smartly Without Extravagance

The Worsted-Tex Suit \$40

To get fine clothes with the richness of appearance usually associated with custom-tailoring, you no longer need pay a high price.

The Worsted-tex Suit enables you to dress smartly without extravagance. It is made of the kind of cloth that fine custom-tailors use.

We have been retailers of fine clothing for many years, but we have never seen the equal of Worsted-tex at anywhere near its price.

KEEP PIGS CALM TO PREVENT LOSS

Pigheadedness On Part of Drover Is Cause of Many Shipping Deaths.

Just because a hog gets pig-headed about entering a railroad car for shipment to market is no reason for the drover to do the same thing. Irritating as it may be to coax and gently urge the animals up the chute, it saves money in the end.

Congestion of the lungs is responsible for 63 per cent of the dead hogs found in market shipments, and is due to over-exertion and excitement of the animals before they are loaded.

"Don't drive fat hogs or sheep rapidly, beat, or excite them," says the Livestock Loss Prevention Association of Ohio, in a recent statement. "Haul heavy hogs to market, even in cool weather, and unload them carefully. Drive fat cattle slowly and give them ample time to reach the yards."

In summer bed the cars with sand. Don't use clay. And don't put cold water on the backs of overheated hogs. Wet the floor of the car."

The association also recommends that the stock be allowed at least an hour, or better, four hours, to stand in the yard before they are put into the cars. In hot weather hogs should have water to lie in before they are loaded. Bags of ice hung in the cars will help to keep air cool, and the drip of melting ice will keep the floor moist.

The Livestock Loss Prevention Association is made up of representatives of producers, shippers, packers, railroads, and other agencies interested in reducing the loss in transit to market.

She Lost 19 Pounds of Fat In 27 Days

During October a woman in Montana wrote—"My first bottle of Kruschen Salts lasted almost 4 weeks and during that time I lost 19 pounds of fat—Kruschen is all you claim for it—I feel better than I have for years."

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the little daily dose that takes off the fat." Don't miss a morning. The Kruschen habit means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts is carried to every organ, gland, nerve and fibre of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

If you want to lose fat with speed get an 85c bottle of Kruschen Salts from Hamilton & Ryan or any live druggist anywhere in America with the distinct understanding that you must be satisfied with results or money back—Adv.

KEEP PIGS CALM TO PREVENT LOSS

Pigheadedness On Part of Drover Is Cause of Many Shipping Deaths.

Just because a hog gets pig-headed about entering a railroad car for shipment to market is no reason for the drover to do the same thing. Irritating as it may be to coax and gently urge the animals up the chute, it saves money in the end.

Congestion of the lungs is responsible for 63 per cent of the dead hogs found in market shipments, and is due to over-exercising and excitement of the animals before they are loaded.

"Don't drive fat hogs or sheep rapidly, beat, or excite them," says the Livestock Loss Prevention Association of Ohio, in a recent statement. "Haul heavy hogs to market, even in cool weather, and unload them carefully. Drive fat cattle slowly and give them ample time to reach the yards."

In summer bed the cars with sand. Don't use clay. And don't put cold water on the backs of overheated hogs. Wet the floor of the car."

The association also recommends that the stock be allowed at least an hour, or better, four hours, to stand in the yard before they are put into the cars. In hot weather hogs should have water to lie in before they are loaded. Bags of ice hung in the cars will help to keep air cool, and the drip of melting ice will keep the floor moist.

The Livestock Loss Prevention Association is made up of representatives of producers, shippers, packers, railroads, and other agencies interested in reducing the loss in transit to market.

She Lost 19 Pounds of Fat In 27 Days

During October a woman in Montana wrote—"My first bottle of Kruschen Salts lasted almost 4 weeks and during that time I lost 19 pounds of fat—Kruschen is all you claim for it—I feel better than I have for years."

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the little daily dose that takes off the fat."—Don't miss a morning. The Kruschen habit means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts is carried to every organ, gland, nerve and fibre of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

If you want to lose fat with speed get an 85c bottle of Kruschen Salts from Hamilton & Ryan or any live druggist anywhere in America with the distinct understanding that you must be satisfied with results or money back—Adv.

League Set For Opening Of Gonfalon Chase

ALL MANAGERS STRENGTHEN OUTFITS FOR TOUGH GAMES

Each Team Has Defeated Each Other Team In Practice Making Selections For League Lead Well Nigh Impossible—Three New Teams In Loop Chase.

Circleville's recreation league, players have been snatched by the will swing into its schedule Monday evening with action on the league's two fields, Mason's and Ohio Utilities, and from advance notices posted by the performance of the eight teams, no one can predict who the possible winner of the league chase will be. The league opens Monday with two games.

Eight teams hold franchises in the gonfalon chase. The Mid-West Box Co., under the management of Syd Beechey, has succeeded the Motor Transport nine. Failure of the Motor Transport to have a representative at the different meetings prompted the league moguls to obtain another entrant.

Last season's champs, Frank Lynch's Coca Cola team, has undergone a little reorganizing with Charlie Scott replacing Dutch Weller at third base and Weller moving to second. With the new rule in effect that only nine men can play, it is necessary to have a fast man at second base, thus Lynch's action in moving Weller to the middle basecock. The remainder of the Coca Cola team will be about the same as it was last year, with the exception of one or two possible changes.

UTILITIES DISBANDED
The Ohio Utilities team, runner-up last year, has disbanded and its

son, third baseman and shortstop of the Motor Transport, are with Doggy and have added plenty of strength, both offensively and defensively.

Pettit Tires-Sinclair Oil have a fast team with Eddie Watson and Carl Wallace dividing the hurling duties. Pettit-Sinclair's have a gang of hitters and when they start to sock the apple, it's impossible to tell when the let-up will come.

RADCLIFF IN
Charles Radcliff has stepped into the race and is backing the Modern Woodman team, managed by Reynold Greene. The Woodmen have played numerous games in practice and although they haven't shown championship form, they may make it interesting for someone before the league chase has been completed.

Another new team is under the management of George Myers, and is nicknamed the Independent Grocers. Big Raymond Smith, one of the league's fastest hurlers in 1929, has cast his lot with the Weavers and adds much mound strength. Lane and Mettler are both keen recreation ball players and with a little seeding and practice, the Weavers may go somewhere.

The baby of the league is Syd Beechey's Mid-West Box outfit and the strength of this organization is known not at all. Practice and a few early games will tell the power of the Beechey gang.

Looking back at the games played in practice, it is impossible to name any team which will take first place without a struggle. Each team has defeated each other team in practice, or something to that effect since the advent of the playing weather, and right now even a Socrates or some

bozo who was pretty good at guessin' 'em couldn't name the winner of this year's chase.

Gordon's look good, Cocoa Colas are bound to be strong with Frank Lynch at the helm, Lutheran Brotherhood has a fine organization with plenty of team spirit which pulls one way. Pettit-Sinclair boasts a good bunch of ball players. Doggy Ward will be plenty strong when he gets his team lined up. Weavers will show strength, so will the Mid-West Box and Modern Woodmen before many weeks of the league's season has gone under way.

SPLIT SEASON
The league moguls have arranged for a split season with the winner of the first half tangling with the winner of the second half in the championship play-off. Two rounds will cover each half with each team meeting each other team twice. Twenty-eight games will be played by each team during the season.

Joe Glitt, league statistician, has compiled a schedule which will be announced in these columns Friday.

SCRATCH PAIR FROM DERBY

Distance Given As Reason For Removal of Two Favorites—Event May 17.

LEXINGTON, KY., May 1—Two three year olds that were among the favorites for the Kentucky Derby on May 17 today had been declared out of the race.

The two favorites are Flying Heels and Sarazen II. Trainers of the former announced that the colt would not be trained for races beyond a mile, while it was announced at the Fair stable that Sarazen would not be trained because of the distance.

Workouts among the remaining entrants were few here yesterday due to a slow and soggy track left wet by a night of rainfall.

Gallant Knight of the Audley farm stable appeared on the track in the afternoon and traveled a full mile and a quarter. Maudlin of the Le Mar stable, accompanied

Gallant Knight for most of the distance.

Gallant Knight was timed at 24 1-5, 49 2-5, 1:14 mile and eighth in 1:57 and mile and a quarter in 2:11 3-5. The clockers missed the mile because of working from an angle.

FOUR BADLY HURT NEAR SHADEVILLE

Injured, All Columbus People, Treated In Mercy Hospital Wednesday.

Four persons were severely cut and bruised late Wednesday when two autos collided in the Columbus-pk just south of Shadysville.

Those injured were Herman Doersohn and William Kirschner, each aged 2, riding in the car of Mrs. Leo Kirschner of Columbus, and Mrs. S. W. McCandlish and Robert McCandlish, also of Columbus.

The injured were treated in Mercy hospital. It is said the cars collided head-on.

With the new rule in effect that only nine men can play, it is necessary to have a fast man at second base, thus Lynch's action in moving Wefler to the middle haddock. The remainder of the Coca Cola team will be about the same as it was last year, with the exception of one or two possible changes.

UTILITIES DISBANDED
The Ohio Utilities team, runner-up last year, has disbanded and its

players have been snatched by the other teams.

The C. A. C. team has changed its name to Gordon Tires, and this aggregation, under the iron hand of "Connie" Crum, gives plenty of promise of making the league chase an interesting one. At the present time "Pood" Oliver of the Motor Transport, is on the mound for the Gordons. When school is out, however, it is possible George Vlereborne, last year's hurler, will go to the mound, although Oliver's form in the games previous to that may have something to do with the hill selection. Art Steele, Ohio Utilities short fielder, has joined the Gordons and gives added strength at the shortfield position. Other minor changes have been made.

The Lutheran Brotherhood has about the same team it had last year and in practice games has been going great guns. Roy Dumm, last year with the Cokes, is holding down second base and his strong stick work will aid the Churchmen considerably.

Doggy Ward has again entered his aggregation and with a few changes from his last year's line-up promises to be strong. Jaggy Davis, Utilities hurler in 1929, has joined forces with Ward as has Dordy Courtwright, his catcher. Clarkie Stevens and Buck Hutchin-

son, third baseman and shortshop of the Motor Transport, are with Doggy and have added plenty of strength, both offensively and defensively.

Pettit Tires-Sinclair Oil have a fast team with Eddie Watson and Carl Wallace dividing the hurling duties. Pettit-Sinclair's have a gang of hitters and when they start to sock the apple, its impossible to tell when the let-up will come.

Gallant Knight for most of the distance.

Gallant Knight was timed at 24 1-5, .49 2-5, 1:14 mile and eighth in 1:57 and mile and a quarter in 2:11 3-5. The clockers missed the mile because of working from an angle.

FOUR BADLY HURT NEAR SHADEVILLE

Injured, All Columbus People, Treated In Mercy Hospital Wednesday.

Four persons were severely cut and bruised late Wednesday when two autos collided in the Columbus-pk just south of Shadeville.

Those injured were Herman Doersom and William Kirschner, each aged 2, riding in the car of Mrs. Leo Kirschner of Columbus, and Mrs. S. W. McCandlish and Robert McCandlish, also of Columbus.

The injured were treated in Mercy hospital. It is said the cars collided head-on.

TO THESE TIRE SAVINGS!

This Tire keeps going in Spite of Punishment!

NICE day. Country road. Motor humming. Then... BANG! You knew it! That bargain-counter casing on the right front wheel!

Another good day gone wrong... and not helped by the fact that you'd been wondering how long that tire was going to last.

You know how it is! So do we! That's why we have Cavaliers on our racks.

Goodrich built the Cavalier for people who want to keep their tire investment at the minimum. Built it to suit them in price... and surprise them in per-

formance. Built it to live up to Goodrich standards... and still cost less than just ordinary tires.

So you'll find the Cavalier big and husky in every particular. Oversize in air cushion. Stout in carcass and sidewall. Tough and slow-wearing in the tread. And good to look at, too!

If you want to take tires off your mind... see us. Our stock of Cavaliers includes your size... and two sizes for trucks. Specially priced now... not apt to be much longer. Come in while the savings are even bigger than usual.

Don't deny yourself the luxury of Camels

REAL SMOKE LUXURY that costs no more! The fullest, most satisfying smoke-delight ever put into a cigarette—and at the usual cigarette price! Why be content with less, when you can have the ultimate smoking pleasure in Camels?

Camel luxury starts with the tobaccos—the choicest Turkish and Domestic leaf that can be selected. All the mild, mellow, natural goodness of these tobaccos is preserved and retained in the exclusive Camel blend—a harmony of fragrance beyond imitation. And the most modern and scientific manufacturing processes complete the assurance of luxury in Camels.

Treat yourself to real cigarette enjoyment!

Streets, and the tracks of said railroad; and
WHEREAS, said automatic wigwag flashlight signals and supports require the use of small portions of said streets at the sides and center thereof for the construction of the supports.
NOW, THEREFORE, BE IT ORDAINED BY THE Council of the City of Circleville, State of Ohio, as follows:
SECTION I. That Norfolk and Western Railway Company be, and it hereby is, granted permission to use such portions of Union Street on the north side of the street and east of the west bound main track of Norfolk and Western Railway Company, and on the south side of said street, and west of the east-bound main track of said Norfolk and Western Railway Company, and on the north side of said street west of the industrial tracks, and such portions of Pickaway street, in the center thereof, east of the west bound track and west of the east-bound track, and on each side of Pickaway street, at its intersection with Union Street, west of east-bound main track, as may be necessary for the purpose of constructing automatic wigwag flashlight signals to safeguard pedestrian and vehicular traffic upon said streets.
SECTION II. Permission herein given shall be revocable at any time hereafter when the council of the city of Circleville desires said signals and their supports removed from the streets and, furthermore, whenever said council shall notify said Railway Company, by written notice mailed to any officer or agent thereof, to take up and remove said signals and their supports, said Railway Company shall remove the same within sixty days after the receipt of said written notice and replace said street in good condition. It is further provided that said Norfolk and Western Railway Company shall protect, defend, and save harmless the city of Circleville from any and all claims or claims for damage, and any expense or cost which may through any cause result from the action of this council in granting to said Railway Company permission to construct said automatic wigwag flashlight signals and their supports in the center of said street.

SECTION III. said Norfolk and Western Railway Company shall restore the streets at the places where said signals and supports are constructed to as good condition as they are now in and to the satisfaction of the Service Director of said city.
SECTION IV. The acceptance of this ordinance by the said Norfolk and Western Railway Company shall be entered upon the original record in writing by said Company within thirty days after the passage of this ordinance, and upon the failure of the said Norfolk and Western Railway Company to do so within said period of time this ordinance shall become null and void, and of no effect.

SECTION V. This ordinance shall take effect and be in force from and after the earliest period allowed by law.
Passed April 16th 1930. John C. Goeller, President of Council.
Attest: Fred R. Nicholas, Clerk of Council.
Approved by me this 16th day of April, 1930. B. T. HEDGES, MAYOR.

AN ORDINANCE
No. 636
To Vacate Alley Number 6 In And-drew Huston and Company's Second Addition To Circleville.
Whereas, on the 15th day of January, 1930, a petition by persons owning lots in the immediate vicinity of Alley Number 6 in Andrew Huston and Company's Addition to the City of Circleville, Ohio, from the south line of Ohio Street to the North line of Alley No. 5 in said City, was duly presented to council praying that said alley, between the points named, be vacated; and notice of the pendency and prayer of said petition has been given as required by law by publication in the Circleville Herald, a newspaper of general circulation in the corporation, for six consecutive weeks ending March 13th 1930.
Whereas, Council, upon hearing, is satisfied that there is good cause for such vacation as prayed for, that it will not be detrimental to the general interest, and ought to be made now therefore,
BE IT ORDAINED BY THE COUNCIL OF THE CITY OF CIRCLEVILLE, OHIO,
That Alley Number 6 in Andrew Huston and Company's Addition to the City of Circleville from the south line of Ohio Street to the north line of alley No. 5 in said city be and the same is hereby vacated.

SECTION II. That this ordinance be and remain in force from and after the earliest period allowed by law.
Passed April 16th 1930. John C. Goeller, President of Council.
Attest: Fred R. Nicholas, Clerk.
Approved April 15th 1930. B. T. Hedges, Mayor. 17-21

SUBMERGED IT RUNS UNDER WATER

IN A SPECTACULAR nation-wide exhibition, General Electric is dramatically demonstrating that the "On Top" refrigerating unit cannot be harmed by dirt, air, moisture and rust. Amazed crowds gather in front of General Electric windows to witness a demonstration. Completely waterproofing an astonishing submerged in water, a General Electric Refrigerating Unit operates with quiet, smooth, unflinching efficiency.

Only a General Electric—born of years of exhaustive research, built for trouble-free service and sealed to steel—could withstand this test. Here is the only unit hermetically sealed in steel—oiled once and for all at the factory. Efficiency is sealed in—trouble sealed out. The simple, flawless mechanism is protected forever by a permanent wall of steel. An engineering triumph—built to run through the years without a thought.

General Electric Refrigerators are modern in principle, fast in freezing, performance, greatest in food storage capacity and by far lowest in cost per year. Cabinets are all steel—white porcelain lined. Not one of hundreds of thousands of owners has ever spent a cent for service. Ask us to prove these advantages to your complete satisfaction.

D. A. R. Notables Here for Tea at Mrs. Hunsicker's

With 65 out of town guests, and the regular members, the Pickaway Plains chapter of the Daughters of the American Revolution entertained more than 100 Wednesday at the tea at the home of Mrs. Clarke Hunsicker on W. Union-st. The Anne Simpson David chapter of Columbus and the Mt. Sterling chapter were invited, with a number of prominent officials from the state.

Among these were Mrs. Herbert Backus of Columbus, former national vice-regent, Mrs. William McGhee Wilson of Xenia, former national vice-regent, Mrs. William Messenger, of Xenia, state vice-regent, Mrs. Orville Daily, of Albany O., state chairman of historical spots and revolutionary graves, Mrs. Peter Blosser of Chillicothe, assistant state registrar, Mrs. John L. Graham of Lancaster, state chairman on the correct use of the flag, Mrs. Frank L. Martin, central district chairman, Mrs. C. E. Galbreath, regent of the Anne Simpson David chapter of Columbus. Mrs. Earl Bowles, regent of the Mt. Sterling chapter, Miss Edith McKinzie, regent of the Nathaniel Massie chapter of Chillicothe, Mrs. James Patton of Columbus, Mrs. Viola Romans, candidate for the state senate, and Mrs. Lewis Laylin, former state chairman of Legislature.

SUBMERGED IT RUNS UNDER WATER

IN A SPECTACULAR nation-wide exhibition, General Electric is dramatically demonstrating that the "On Top" refrigerating unit cannot be harmed by dirt, air, moisture and rust. Amazed crowds gather in front of General Electric windows demonstration. Completely—witnessing an astonishing submerged in water, a General Electric Refrigerating Unit operates with quiet, smooth, unflinching efficiency.

Only a General Electric—born of years of exhaustive research, built for trouble-free service and sealed in steel—could withstand this test.

Here is the only unit hermetically sealed in steel—oiled once and for all at the factory. Efficiency is sealed in—trouble sealed out. The simple, flawless mechanism is protected forever by a permanent wall of steel. An engineering triumph—built to run through the years without a thought.

General Electric Refrigerators are modern in principle, fast in freezing performance, greatest in food storage capacity and by far lowest in cost per year. Cabinets are all steel—white porcelain lined. Not one of hundreds of thousands of owners has ever spent a cent for service. Ask us to prove these advantages to your complete satisfaction.
